

UNDERGRADUATE PROFILE

Name: **PAUL CALDBECK**

University: **NOTTINGHAM TRENT**

Course: **FOUNDATION CIVIL ENGINEERING**

Year: **2nd YEAR**

Placement: **SUMMER 2009**

Division: **CIVIL ENGINEERING**

Site based: **DERBY STW**

Paul has joined NMC for the first time this year. Paul applied to the Company after meeting us at the Civil Engineering Careers Fair held at Nottingham Trent University. It is the ongoing training, support and progression within the Company that appealed to Paul along with the longevity of employees who work for us.

Paul has worked on various water based civil engineering sites during his time with us, latterly at Derby STW where he has helped one of our senior engineers with setting out and interpretation of drawings. Paul has also gained the basic understanding of the requirements at site management level and from his limited knowledge he believes NMC have a good structure on site.

Paul has enjoyed his time at NMC and is hoping for a permanent position following completion of his Foundation Degree at Nottingham Trent University. Paul would like to commence full-time employment whilst undertaking the final part of his degree part-time.

Good luck to Paul for the final year of his Foundation Degree and we look forward to working with him again next year.
