

UTILITIES OPPORTUNITIES

North Midland Construction PLC is a reputable Civil Engineering, Utilities, M&E and Building contractor. We operate on a national basis across a broad range of industries, both in the public and private sectors. With a reputation for quality, safety and excellence, we have an impressive and growing client base including many clients with whom the company has worked for several years.

Various opportunities have arisen due to the set up of a new Network division. We are looking for driven individuals for Cabling Teams, Fibre Splicers, Testers and Jointers for contracts in the Midlands, North West and North East regions.

Fibre Splicing / Testing / Jointing Engineers

Applicants to have experience in the following:

- Splicing all types of fibre optic cables
- OTDR / ILM Testing at 1310, 1550 and 1625 wavelengths along with test result
- As-built documentation skills
- Knowledge of copper and coax jointing/testing would be an advantage
- Must be proficient in completing on site Risk Assessments and Method Statements
- NRSWA unit 2 certification and CSCS certification would be an advantage
- Full clean driving license required.

Cable Pulling Operatives

Applicants to have experience in the following:

- Experience in cable pulling of copper, coax and fibre optic cables using conventional cobra, rod and rope methods and use of winch techniques
- Knowledge of copper and coax jointing/testing would be an advantage
- Must be proficient in completing on site Risk Assessments and Method Statements
- NRSWA unit 2 certification and CSCS certification would be an advantage
- Full clean driving license required.

For all positions applicants must have experience working within the Utilities industry, be able to use their own initiative, be highly motivated, able to work as part of a team and have the drive and desire to succeed within a well established, reputable and national Construction company. Excellent salaries are offered along with the usual benefits of a large organisation.
